PDI Orbis
Point of Sale

State-of-the-art, intuitive, and reliable technology at your fingertips

Serve your customers anywhere across all store profit centers

PDI Orbis for POS is designed to support convenience, fuel, and foodservice operations on a single, modern technology platform. The solution supports a wide variety of complex transaction types and decreases employee training time while increasing customer throughput with its intuitive user interface. Improve store profitability through prompted upselling, leverage robust management tools to prevent fraud, and provide exceptional customer experiences. PDI Orbis gives you all this in one mobile platform with powerful, industry-specific integrations.

Promotions and Upselling Prompts
Centralized and Local Configuration
Real-Time Sales, Profit & Margin Reports
Always-On Architecture

An integrated platform:
The POS software can be easily combined with the back-office software in one end-to-end solution for full control of your business
Unparalleled mobility:
Device-agnostic software for total flexibility, controllable hardware costs, and unlimited scalability

Features and benefits at a glance:

- Support convenience, fuel, and complex foodservice transactions in one system
- Robust promotions and upsell prompts for driving up basket spend
- Connectivity to all types of fuel dispensers speeds up check out and increases customer satisfaction
- Dynamic alerting (e.g., in drive-off situations) for reduced cost risk
- Real-time updates of sales, pricing, stock, staff rotation, and time and attendance
- Differential pricing, invoicing, payment terms, discounts, and point redemption for strategic customer engagement
- Integration to payment terminals prevents double entry errors and ensures sales totals link through to the customer’s card transaction for streamlined reconciliation
- Ability to transfer stock among store and warehouses and track stock in transit to prevent spoilage and ensure perpetual inventory availability
- Serial tracked vouchers and gift cards issued directly from the POS for convenient revenue increase
- Clock in and clock out function located before the login screen to accommodate for staff without authority to use the POS

Seamless integrations and flexible APIs

- Payment terminals - indoor/outdoor
- Forecourt controllers
- Fuel dispensers
- Automatic Tank Gauges (ATG)
- Security systems
- Digital signage
- E-commerce
- Handheld site assistant
- Cash management systems
- Other IoT devices
