

PDI Point of Sale

State-of-the-art, intuitive, and reliable technology at your fingertips

Serve your customers anywhere across all store profit centers

PDI Point of Sale (POS) is designed to support convenience, fuel, and foodservice operations on a single, modern technology platform. The solution supports a wide variety of complex transaction types and decreases employee training time while increasing customer throughput with its intuitive user interface. Improve store profitability through prompted upselling, leverage robust management tools to prevent fraud, and provide exceptional customer experiences. PDI gives you all this in one mobile platform with powerful, industry-specific integrations.

Promotions and Upselling Prompts

Centralized and Local Configuration

Real-Time Sales, Profit, and Margin Reports

Always-On Architecture

An integrated platform

Easily combine the POS and back office software in one end-to-end solution to gain full control of your business

Unparalleled mobility
Device-agnostic software
for total flexibility, controllable
hardware costs, and
unlimited scalability

Features and benefits at a glance

- Support for convenience, fuel, and complex foodservice transactions in one system
- Robust promotions and upsell prompts for driving up basket spend
- Connectivity to all types of fuel dispensers to speed up check-out and increase customer satisfaction
- Dynamic alerting (e.g., in drive-off situations) for reduced cost risk
- Real-time updates of sales, pricing, stock, staff rotation, and time and attendance
- Differential pricing, invoicing, payment terms, discounts, and point redemption for strategic customer engagement
- Integration to payment terminals to prevent double-entry errors and ensure sales totals link through to the customer's card transaction for streamlined reconciliation
- Ability to transfer stock among store and warehouses and track stock in transit to prevent spoilage and ensure perpetual inventory availability
- Serial tracked vouchers and gift cards issued directly from the POS for convenient revenue increase
- Clock-in and clock-out function located before the login screen to accommodate staff without authority to use the POS

Seamless integrations and flexible APIs

- Payment terminals - indoor/outdoor
- Forecourt controllers
- Fuel dispensers
- Automatic Tank Gauges (ATG)
- Security systems
- Digital signage
- E-commerce
- Handheld site assistant
- Cash management systems
- Other IoT devices

PDI Back Office and Home Office Solutions

The back office you need, to remove complexity you don't want

Holistic management of your business complemented by home office functionality

PDI Back Office and Home Office (BOS/HOS) solutions help you meet the increasing consumer demands for convenience and achieve the full potential from your multi-faceted fuel, retail, and foodservice facilities, regardless of country and currency. With one comprehensive software platform, you can centrally manage your pricebook and your complete inventory, including full recipe yield, all while ensuring consistent reporting and rolling up disparate data into one version of the truth for all sites and business ownership models.

Corporate, Dealer, and Franchise Operations

Exception-Based Reporting

Centralized Inventory and Pricebook

Secure Thin Web Client

All-in-one management

Back office site reporting, setup, and maintenance combined with home office reporting, pricing maintenance by brand, and site grading for accurate stock allocation

Be in the office when you are out

PDI gives you real-time visibility into your business performance from anywhere you are. Running in a web browser, PDI POS gives you and your colleagues the freedom to log on to the software at the same time. With over 100 standard reports covering sales, stock POS, cash management, customers, and staffing, you can stay up to date whether you are at the store, at the headquarters, or on the go.
